REMARKS

The species of FIG. 15 has been elected, without prejudice to the right of Applicant to file a divisional application(s) directed to the non-elected species.

Claim 7 has been amended. As amended, claim recites that the track is slidably engaged by said member. Support for this amendment is found in original claim 7.

Claims, as amended, which are believed to be readable on the elected species are:

1, 3 to 7, 11 to 17, and 21

It is respectfully submitted that the above claims, as amended, readable on the elected species are unobvious over the references of record and therefore patentable. Accordingly, it is respectfully requested that claim 2, dependent on readable claim 1, be reinstated and this application passed to issue.

Respectfully submitted,

*James C. Simmons*
